

Pebbles is our childcare program for infants through age 3, designed to care for the younger siblings of enrolled Cornerstone students. In Pebbles, children are introduced to the same anchor peg songs their older brothers and sisters are learning, giving them an early connection to the rhythms of learning. Simple visuals and playful activities reinforce these pegs, sparking curiosity for those ready to engage, while providing a nurturing and safe environment for all. This service allows parents and guardians to devote their full attention to the day of learning with their older students in Cornerstone through Capstone, confident that their little ones are being loved and well cared for.
